r/MGTOW: Consensual Hallucinations of Gynocentrism in an Interpretive Community

Abstract: This research examines r/MGTOW (men going their own way), a Reddit community within the manosphere focused on disengagement from heterosexual relations. Drawing on concepts as boundary-making, interpretive community and consensual hallucination, and neoliberal interpretations within the manosphere, this research aims to investigate how heterosexual relations are discussed in r/MGTOW and how this discourse posits women. Word embedding-based cultural geometry and concordance analysis was used to examine discourses along the dimensions of disgust-desire, dominant-submissive, and shame-pride. Despite self-proclaimed disengagement from women, findings show that heterosexual desire remains present in r/MGTOW. Terms such as ‘girlfriend’ and ‘woman’ are both positioned as desirable (submissive and dominant respectively), while heterosexual relations generally appear as disgusting. Findings further reveal a disdain for mainstream institutions, religions, or political organisations, with selective figures employed to support claims present in the community. Affect related findings highlight collectively held interpretations of sex and shame, further positioning r/MGTOW as an interpretive community.

Introduction

In a debate held in the House of Commons in March 2025 in the United Kingdom, Prime Minister Keir Starmer spoke about the Netflix series *Adolescence* and the need to tackle the abhorrent and increasing violence carried out by young men on women under the influence of what they see online. The series deals with the topic of the corrosive impact social media and misogynistic influencers has on a teenage boy. Moreover, it shows the importance of understanding the role social media plays in influencing young impressionable minds especially in their aspect of having a relationship with the opposite sex (Hamilton, 2025). This space in the social media called the Manosphere, made its first appearance in the blogspot.com as an evolution of the term “blogosphere” (Iñigo, 2025 p. 2). This manosphere consists of different separatist groups. Amongst them Men Going Their Own Way (MGTOW) is a digital manifestation of the Men’s Liberation Movement who focus on individualistic, self-empowering actions as opposed to traditional collective actions typical of other groups of manosphere like Men’s Rights Activists and Incels (Jones et al., 2019 p. 1903).

Despite being present in a variety of websites and social media platforms, MGTOW eventually found a large following in Reddit in the subreddit r/MGTOW, reaching its peak in 2021, before being banned in the same year for breaking policies against the promotion of violence and hatred (Fowler, 2025). A variety of studies has been conducted on MGTOW’s presence in reddit and other social media platforms like X. Jess Fowler conducted an ethnographic study focusing on how masculinity, emotions and relational dynamics are defined by members of the subreddit (Fowler, 2025). Jones et. al. focussed on how the ideology and rhetoric of r/MGTOW propagates and normalises misogynistic beliefs through online harassment (Jones et al., 2019). Górska et. al. focussed on a quantitative study of the

tweets of #MGTOW and #feminism to show how the idea not only focuses on a separatist approach towards women, but also encourages violence against them (Górska et al., 2022).

This paper focuses on the gynocentric aspect, which is a defining feature of the r/MGTOW subreddit. The belief that women's needs and perspectives are prioritized over the needs of men is the main idea that is propagated through the "red pill" that the participants (like in the Matrix film) have to consume to see the "true reality". This in turn influences how the members of the subreddit view and discuss their relationship with women in the forum. This idea will be explored in detail in this paper by asking the research question: **How are heterosexual relations discussed in r/MGTOW and how does this discourse posit women?**

It would also be an opportunity to understand how women are viewed from the perspective of these "oppressed men" and the reasoning that "each member" gives to sustain their idea of a gynocentric society. The individual interpretations lead to the community to behave like an interpretive community which in succession leads to the creation, maintenance and perpetuation of a consensual hallucination that each member is able to successfully contribute towards.

Theoretical Framework

This research draws on three main concepts from existing literature on community formation and development of discourses among them to look at r/MGTOW and to guide the analysis of the findings of the data sprint project.

Firstly, situating boundary-making in the context of Reddit as a platform and its specific affordances highlights a conflict proposed to exist by the members of r/MGTOW. Boundary-making here refers to the process within ethnic and cultural communities that can also be applied to the r/MGTOW subreddit. “When defined as an ascriptive and exclusive group, the nature of continuity of ethnic units is clear: it depends on the maintenance of a boundary.” (Barth, 1998, p. 14). Using Barth’s (1998) work on ethnic groups and boundary-making and placing emphasis on the “dichotomisation between members and outsiders” (p. 15), a pattern of “us vs. them” thinking can be observed, with proper disengagement from outsiders being able to increase group-identification.

The combination of boundary-making with gynocentrism, in this context the belief of society as structured to privilege women, which members of r/MGTOW believe to be the case, informs how they position themselves in relation to women and outsiders generally. In an ethnographic study on the r/MGTOW community, Fowler (2025) writes “[...]users frame their experiences as gynocentric oppression rather than by critiquing a system that discourages men from establishing meaningful and supportive relationships with one another.” (pp. 47-48). Through juxtaposing a gynocentric worldview with the more mainstream, patriarchal understanding of the way society is structured, members of r/MGTOW strengthen or solidify their group identity and consequent norms permeated within the group.

Gourgey and Smith (1996) develop the concept of “consensual hallucination” to explain how communities are bounded by shared interpretive understandings rather than

objective realities. This concept aids in positioning r/MGTOW as an interpretive community, where meaning is reliant on specific host tropes “[...]that provide the interpretive frame and engender the creation and maintenance of these interpretive communities.” (Gourgey & Smith, 1996, p. 233) to construct a shared reality among members. Through Neuromancer’s metaphor of “cyberspace”, the authors show how participants of interpretive communities behave as if fictional constructs are objective reality. Consensual hallucination here would not strictly imply incoherent or irrational beliefs a group is partaking in creating, but functions as agreed upon fiction that becomes true through the collective embracing of those ideas. The online space of Reddit allows members of r/MGTOW “a chance to enforce or challenge the "set of assumptions" presently operating (Gourgey & Smith, 1996, p. 237)”. Members of r/MGTOW have shared assumptions about female nature, masculinity and maintain a negative outlook on heterosexual relations. Through the repetition, reinforcement, or protection of these assumptions, members perceive their reality through that interpretive lens. A shared understanding of reality explains narrative consistencies within group-thinking, as well as acting as a blueprint to further distinguish members of the group from outsiders through boundary-making.

Finally, this research draws on literature identifying a neoliberal discursive push within the manosphere to analyse how r/MGTOW discusses heterosexual relations. Although r/MGTOW presents itself as a rejection of mainstream social expectations of men, through the notion of “going their own way”, its discourse still reflects and reproduces neoliberal values that emphasise individual responsibility and rationality. Research on related manosphere spaces, specifically r/TheRedPill (Van Valkenburgh, 2018), demonstrates how heterosexual relations are frequently conceptualised through for example, market logic, positioning women as commodities and applying a highly economised understanding of interpersonal and structural social relationships. Men in this subreddit are expected to

maximise their own market value within what is perceived to be a competitive sexual economy. This framework allows for participants of the manosphere to shift anger from systemic reasons behind the perceived failure of current social relations, onto individual responsibility. While r/MGTOW distances itself from the strategies of active pursuit of women shared in r/TheRedPill, similar neoliberal assumptions can be observed. r/MGTOW promotes (sexual and romantic) withdrawal as a rational response to a perceived hostile marketplace, heterosexual relationships have been assessed for risk, and the conclusion of disengaging from them is positioned as self-optimisation. In addition to repeating status-quo and hegemonic ideas as a contradiction to the very name of the subreddit, this sort of neoliberal framing of heterosexual relations also creates tension with the aforementioned concept of consensual hallucination.

The ways in which r/MGTOW is observed to alternate between discussing heterosexual relations through the lens of the collectively maintained consensual hallucination and addressing individual member's desires reveal how the neoliberal individualisation of these relations can coexist in shaping how women and intimate relationships are positioned within the community.

Methodology

In order to conduct this research, a study corpus of the subreddit r/MGTOW is retrieved from a public archive of Reddit submissions and comments from 2005 until 2022. After retrieving the data, it is examined using the Word2Vec algorithm (Kozłowski et al., 2019), a trained language model, to create embedding spaces and generate visualisations.

The research started by analysing the frequency distribution file, and running concordances on revealing words related to women and heterosexual relations to examine their context. After obtaining a global overview of how r/MGTOW participants view these topics, the analysis proceeded with the creation of multiple cultural geometry visualisations to enable deeper discourse analysis (Kozłowski et al., 2019). Herefore, measurement scales were made for the X and Y axis of the visualisations. With the use of the word embedding tool which identifies similar words of the input words, and the ‘vector arithmetic’ word embedding tool which adds and subtracts vectors from one another providing analogies, words were found to create the axes. For this research, two different dimensions based on antonyms were created.

Dimension one consists of X axis disgust < 0 < desire and Y axis submissive < 0 < dominant (Appendix A) and is based on concordances highlighting that r/MGTOW participants frame women as both desirable and disgusting, and as either submissive or dominant. The dimension is used to generate visualisations about words related to women, found with the ‘vector arithmetic’ and similar word tool, and words labeled as ‘PERSON’ and ‘NORP’ (Nationalities, Organizations, Religion, Political Groups) in the frequency distribution file (Appendix C, D, E). The visualisation about women is made to contextualize how participants view women and their relation with women. The other two visualisations examined which social and political actors influence the subreddit and how these influences shape the ideological orientation of its participants.

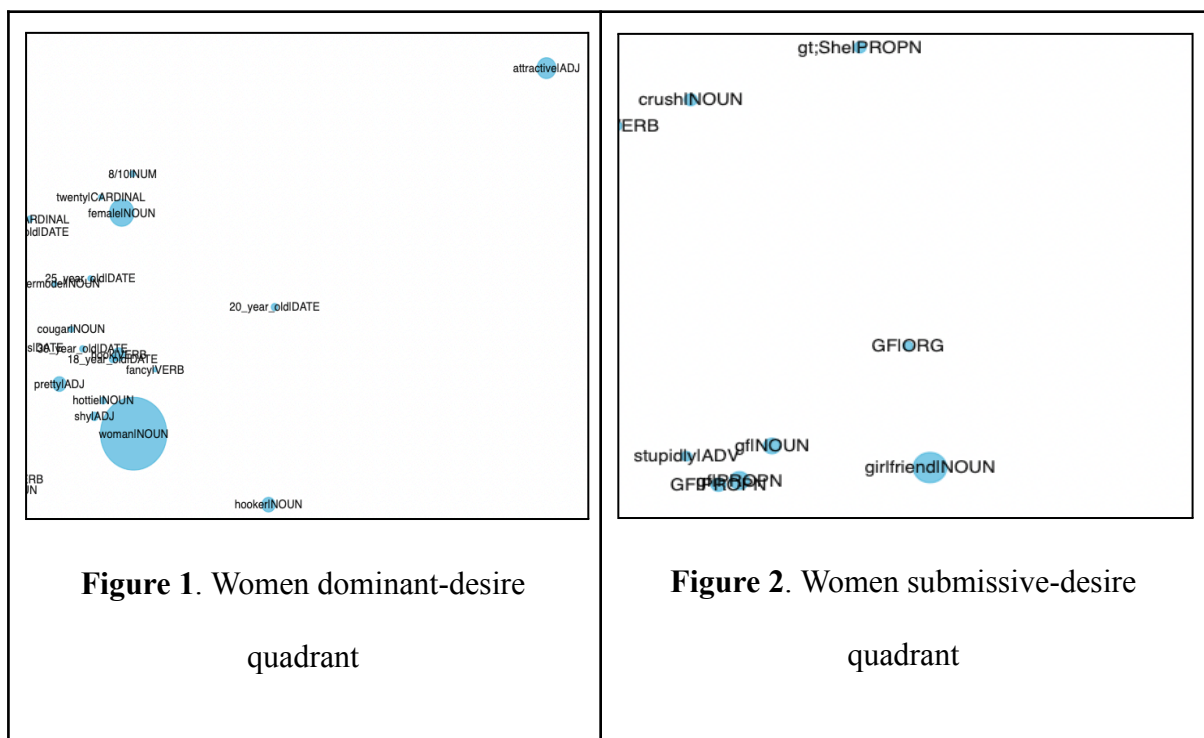

Dimension two is created based on the recurring presence of shame while discussing sex with women. This is visible in the first generated concordances to get the global overview of the subreddit. Therefore, the antynom projection consisted of X axis disgust < 0 < desire, and Y axis shame < 0 < pride (Appendix B). To further analyse this shame amongst the participants, a visualisation is created with an input of words related to affect and sex (Appendix F). These words were found with the use of the ‘vector arithmetic’ word embedding tool as well, and were chosen to get more context of what exactly is seen as shameful regarding sex with women in r/MGTOW.

After analysing the four visualisations, concordances were generated for unexpected and particularly illuminating words to conduct a close reading of the discourse. This approach made it possible to gain a more detailed perspective of how heterosexual relations are discussed, and how this positions women in the subreddit.

The methodological steps outlined above enable an effective exploration of r/MGTOW discourse. For example, word embeddings and cultural geometry offer a way to move beyond frequency patterns and isolated meaning to detect the relational structures of meaning within the r/MGTOW corpus (Kozlowsky et al., 2019). This is a strength of this mixed method approach, as it allows patterns to emerge that would be difficult to detect through close reading alone, especially given the size of the corpus. Moreover, the use of vector arithmetic to create axes is methodologically consistent, because dimensions emerge from patterned language use rather than manual coding. Additionally, the method’s effectiveness depends on interpretation. As Stoltz and Taylor (2021) emphasize, embeddings do not ‘explain’ meaning but condense it to enable interpretation. Therefore, the combination of embeddings with concordance analysis strengthens this research validity by situating cultural geometric patterns within the discursive context of r/MGTOW.

Women

Accordingly, a distinction emerges within r/MGTOW between *woman* as positioned in the dominant-desire quadrant (Figure 1) and *girlfriend* in the submissive-desire quadrant (Figure 2). This reflects fundamentally different evaluations of desirable femininity, which becomes evident when the antonym projection is read alongside the concordance data (Appendix J).

In the *woman* concordances, desirability is framed as a threat and something which destabilizes men (Table 1). In this sense, desire refers to the power women have that men want to control. Women are particularly described as ‘infecting’ men and making men ‘zombies’ (Table 1). These references to women indicate that men in the r/MGTOW experience a sense of loss of control in their lives, which they blame on women. Moreover, this demonstrates why the word *woman* is also positioned as dominant. Because women are imagined as controlling men’s self-worth and sexual access (Table 1).

Happened to me so many times . Started out as a Chad , the	woman	turned me into a little bitch . Women infect you with bacteria , make you fall in love etc ... then you ca n't think clearly anymore . You are like a zombie.

I think the real tragedy of the male condition is most men know all about	women	's natural behavior , but they still willingly put that pussy so high up on a pedestal that it blocks out the sun and they forever linger in the shadow of the man they once were . Biological chemistry

Table 1. Concordances lines *woman*

This is in contrast with the *girlfriend* concordances, which reveal a different notion of what kind of femininity is desirable. The word *girlfriend* is discussed in terms of effort and whether they ‘bring something to the table’ (Table 2). The reduction of girlfriends to metaphors of labor or objects (such as cars) underscores that desirability is tolerated only when women’s agency is minimized (Table 2). This supports the girlfriend’s position in the submissive–desire quadrant: she is desirable only insofar as she is imagined as manageable. Therefore, desire towards a ‘*girlfriend*’ is conditional and controllable and not seen as a threat or dominant like desire is towards ‘*woman*’.

you and never give anything in return . Being kind is stupid , and I 'm not an idiot . Or at least I do n't want to be . Always seemed like so much work to get a	girlfriend	, even before I was redpilled . As silly as it may sound , I wanted to be pursued by girls , and not the other way around . Then I realized that not only I wo n't be respecting the prostitute (i.e.	girlfriend	, wife or whatever other name) but the prostitute wo n't be respecting me because they realize that I I'm grossly overpaying for the sex they provide . That means I can do no better and therefore ,

Table 2. Concordance lines *girlfriend*

The disgust axis shows what part of heterosexual relationships are defined as unpreferable. A significant outcome on the dominant-disgust axis is the word *cheerleader*, as directed upward in Figure (5). The concordances frame cheerleaders as figures who receive validation effortlessly by ‘just walking around’ (Table 3). This perceived surplus of attention evokes resentment and moral disgust in the r/MGTOW. Women in this category are portrayed as figures who benefit disproportionately from heterosexual dynamics (Table 3). Therefore, they are seen as dominant (Figure 5).

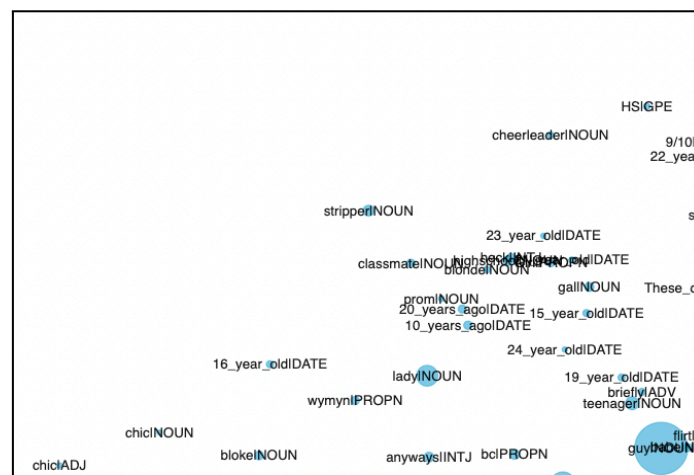

Figure 3. Women quadrant dominant-disgust quadrant

In the NORP projection, most mainstream U.S. religions, Christianity, Judaism, and Islam, were positioned in submissive disgust, (Figure 5) suggesting they are broadly unfavored within r/MGTOW. Buddhism stood out as an exception, appearing in a more desirable and dominant position. This contrast may reflect the group’s anti-establishment rhetoric and emphasis on “going their own way,” aligning with a perceived rejection of Western religious norms. Judaism and Jews, however, occupied a dominant and disgusted position. (Appendix Figure I) This position reflects conspiracy-driven narratives, particularly beliefs that frame Jewish people as powerful elites who control social structures. These views parallel MGTOW conceptions of gynocentrism, in which society is believed to be systematically organized to benefit women at men’s expense.

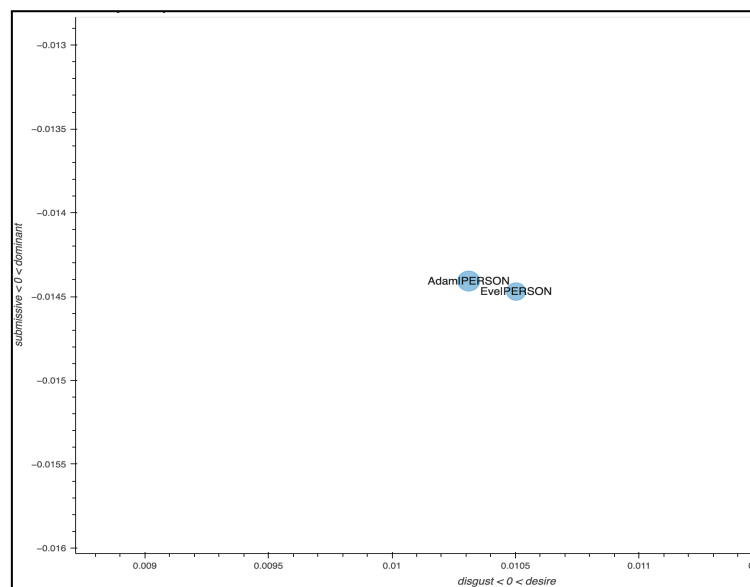

Figure 6. PERSON submissive-disgust quadrant

The PERSON projection further complicated these findings, particularly through the placement of biblical figures Adam and Eve. Despite the broader rejection of Abrahamic religions observed in the NORP projection, Adam and Eve appeared in desirable and submissive positions. (Figure 6) Concordance analysis revealed that these figures were not referenced positively in a religious sense, but rather instrumentalized to reinforce

misogynistic beliefs. Eve was frequently associated with sin, deception, and moral corruption, while women more broadly were portrayed as inherently dishonest, destructive, and defined solely by reproductive roles. (Appendix figure K) These findings highlight how religious narratives are selectively reinterpreted to justify hostile views toward women, even when the religion itself is otherwise rejected.

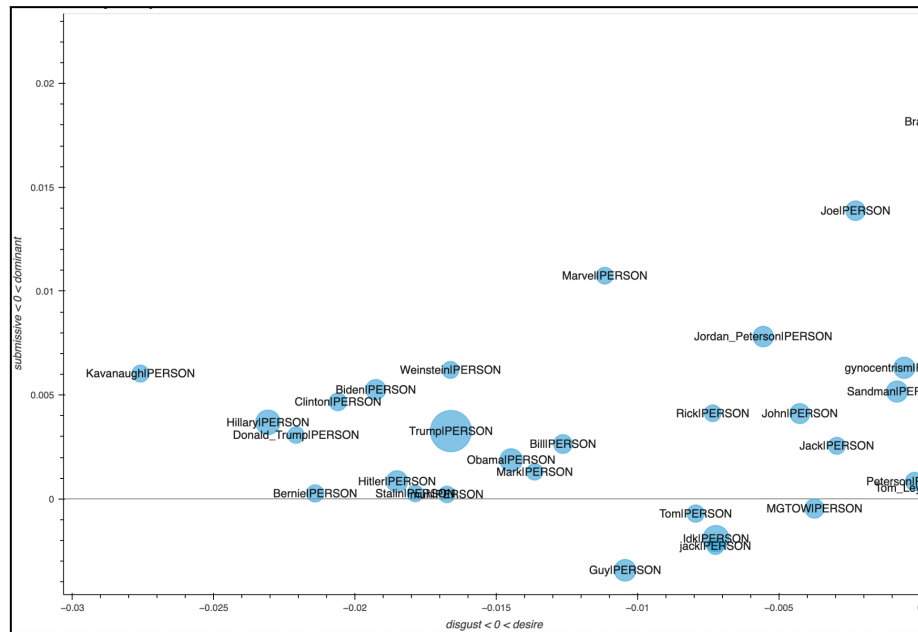

Figure 7. PERSON dominant-disgust quadrant

The PERSON projection also revealed r/MGTOW's political cynicism. Notably, despite no affiliation with a specific country, the visualization appeared to be centered around US Politics. All major American political figures, across ideological lines, were clustered in dominant disgust, indicating a generalized rejection of U.S. political leadership rather than allegiance to a specific party. (Figure 7) This included figures such as Barack Obama, Hillary Clinton, Bernie Sanders, and Donald Trump. Trump's placement was particularly notable, as initial assumptions suggested his rhetoric might align with MGTOW values. However, concordance analysis revealed substantial disdain toward Trump, with users describing him as a poor leader who damages the country.

Not really though . It appears to be easy , but he still gets fucked by the gynocentric society if he is unaware of the redpill . Such as Brad	Pitt	getting divorced
Simple , realizing that even being perfect was never good enough for women . Based on what happened to Henry Cavill , Channing Tatum and Brad	Pitt	, it helped cement that observable reality
Total waste . I 'm above average in every way , but since I 'm not rich or famous or a male model , the attractive women are willing to hold out until their death for Brad	Pitt	to walk in . They 're convinced their worth is no less than marrying a Prince

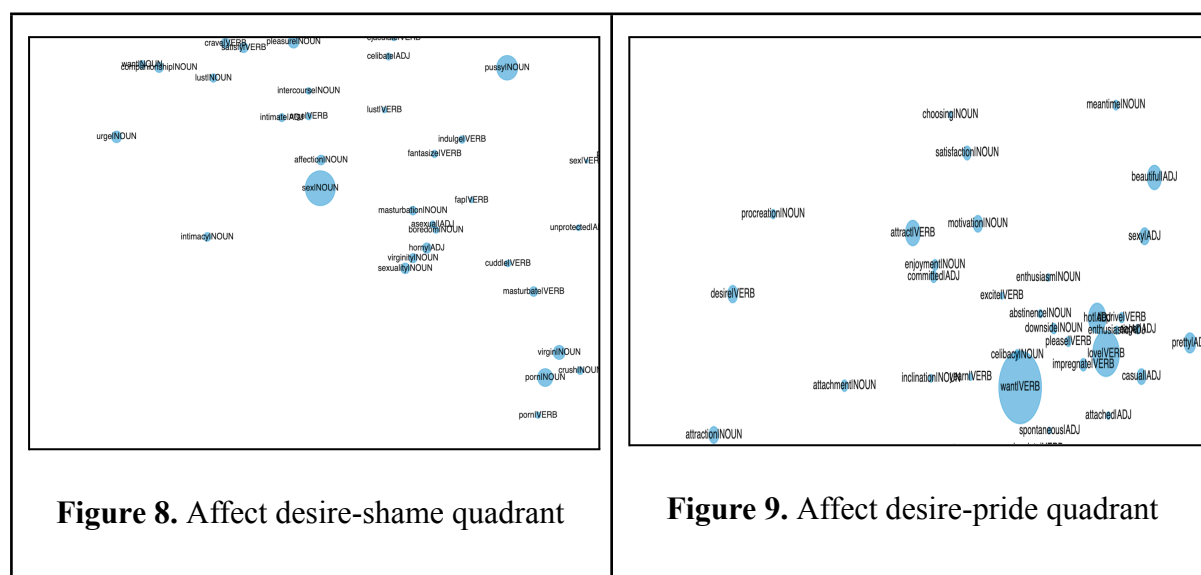

Table 5. Concordance lines *Brad Pitt*

Finally, concordances on male celebrities such as Brad Pitt, found in dominant desire, revealed r/MGTOW's contradictory construction of the "desirable man." Men who are wealthy and conventionally attractive, such as George Clooney, Leonardo DiCaprio, Matt Damon, Johnny Depp, and Jeff Bezos, were idealized, in theory. However, users simultaneously dismissed the importance of wealth and attractiveness by arguing that none of these men could successfully maintain relationships with women. (Table 5) This contradiction reinforces a core MGTOW belief, that heterosexual relationships are inherently damaging to men, regardless of status or desirability.

Taken together, the NORP and PERSON projections provide a more cohesive understanding of r/MGTOW's worldview. Religion, politics, and celebrity figures are not evaluated on consistent ideological grounds, but rather through their perceived relationship to misogyny and gynocentrism. These findings suggest MGTOW members direct their anger towards individuals, mainly women, for their perceived social failures, instead of looking at the root of systematic reasons. The findings contribute to a broader understanding of how r/MGTOW conceptualizes women, power, and heterosexual relationships.

Affect

The antonym projection of sex and affect (Appendix I) reveals strong correlation between sex and shame. The disgust axis is sparsely populated, and most of the words are positioned in the desire axis, distributed over the desire-shame quadrant (figure 8) and desire-pride quadrant (figure 9).

The desire-shame quadrant is populated with words related to solo (e.g., *fap*, *masturbate*, *porn*) as well as partnered (e.g., *sex*, *intercourse*) sexual acts. This aligns with r/MGTOW's framing of sex with women as a threat to men's autonomy, and the experience of romantic attraction as disempowering. The shame experienced with this lack of agency is reflected by words such as *celibacy* and *abstinence* being associated with pride, while *virgin* and *virginity*, as well as *asexual* are shameful. Sexual restraint, when a deliberate and voluntary act, is framed as self-mastery, and aligns with previously observed admiration for spirituality through Buddhism. Concordance analysis (table 6) further supports these claims. While in some instances, it reinforces earlier findings that the feelings that accompany sex are problematic, not the act itself.

get aroused at the female form anymore . I'm not asexual but a nice ass and pretty face dont give any kind of satisfaction anymore like it used to and I can thank my self - discipline and	celibacy	streak for that

Involuntary	celibacy	= incels Voluntary celibacy = many MGTOWs

Table 6. Concordance lines *celibacy*

Notably, *procreation* and *impregnate* appear in the desire-pride quadrant. This suggests that sex becomes valorized when divorced from lust and instead is recontextualized as duty of reproduction. This is consistent with earlier findings that suggest puritanical and biblical discourses function as a means to justify misogynistic views. In this framing, procreative sex asserts male agency and control, while a woman submits to her duties of child-bearing. Concordance analysis (table 7 and table 8) partially supports this, framing sex as acceptable when done for reproduction and emphasizing men's biological superiority. However, other instances reveal procreation to be shunned as an instinct that controls men and impregnation as the consequence that ties them down.

These contradictions suggest a shared, but fragile hallucination within an interpretive public characterized by individualism and perceived oppression. Men are consistently posited as biologically and morally superior, but the best course of resisting gynocentric society ranges from celibacy to only abstaining from women romantically. Pregnancy is framed as a woman's duty, but also as a threat to male autonomy.

Real love , that is , wanting the best for other people , is a must . Sex is overrated , useless unless for	procreation	
You 're called a rational man by historical standards by recognizing women are only for	procreation	and sexual desires , love has always been a myth , and societies used it to slave men to it

Conclusion

This study aimed to examine how heterosexual relations are discussed on r/MGTOW and how this discourse posits women. The findings reveal that r/MGTOW is an interpretive community built around a consensual hallucination of a perceived gynocentric society that consistently favors women and oppresses men. However, beyond this central point, the discourse is characterized by contradiction rather than coherent withdrawal from relations with women, as the subreddit claims. The findings reveal that desire for women remains central and is continuously negotiated.

The analyses reveal women to be positioned as both desirable and threatening. Desire is however only deemed acceptable when women are framed as controllable, as is reflected with the distinction made between *woman* and *girlfriend*. Degrading terms are shown to classify women as disgusting and submissive, and are used to classify women who are perceived to be benefiting disproportionately from heterosexual dynamics. These findings reveal that r/MGTOW does not reject women outright. Rather, it rejects women that cannot be controlled and thus threaten male dominance.

This perceived loss of agency is accompanied by affective responses of shame surrounding sex and desire. Voluntary sexual restraint is associated with feelings of pride and self-mastery, which aligns with individualist and spiritual ideals. Sex is seen as shameful when it threatens male autonomy, but becomes conditionally acceptable when recontextualized as reproductive duty or is imagined within a sexual economy that favors men. The tensions between these competing framings showcase the fragility of the shared hallucination of gynocentric oppression.

This fragility can be partly explained by the neoliberal and individualist values prevalent within r/MGTOW. The analyses reveal an interplay between a collective narrative of male oppression, and individual strategies of resistance. The dispersed political beliefs revealed in the antonym projections of *NORP* and *PERSON* highlights this further by showcasing the incoherent ideology they abide to, where mostly any belief is accepted when it is weaponized to subjugate women and reinforce beliefs of male superiority. Taken together, this study illustrates how online manosphere communities can sustain deeply contradictory understandings of gender and intimacy through a consensual hallucination within an interpretive framework.

Cheerleader concordances:

you aren't attractive anymore . Men's preferences don't change . A hot 18 year old	cheerleader	doesn't stop being hot. This isn't thought of by women, but men use Viagra *
Get rid of rings girl , pit girls , and	cheerleaders	too . I came to watch men compete , not women be attention whores
Average thots got to have sex to get tons of validation . These 10 models that are pro	cheerleaders	get it just walking around and have since they were 14 . But they are all attention whores . The
ha ! I wonder if having	cheerleaders	at your games would just rile the guys up even more ! ? ! Might be more fighting and
yearbook vs. today I can tell you this is absolutely 100 % true . Decades later , the beautiful	cheerleaders	getting all the attention in high school and college are now fat - backed wildebeests with rotten kids and lives

Women concordances:

Happened to me so many times . Started out as a Chad , the	woman	turned me into a little bitch . Women infect you with bacteria , make you fall in love etc ... then you ca n't think clearly anymore . You are like a zombie.
go through a touchdown into the red - pill phase whether they actualize what it is or not after a breakup and/or divorce . I think the real tragedy of the	women	's natural behavior , but they still willingly put that pussy so high up on a pedestal that it blocks out the sun and they forever linger in the shadow of the

male condition is most men know all about		man they once were . Biological chemistry
I posted this before somewhere else , but Korean girls are generally worse than western	women	(go figure) . Korean women are expected to have multiple boyfriends at once or else she is considered ugly and unpopular and all the men know they do this . You simply have to be the prettiest boy
I 've dated all kinds of women of different races . By far , the loudest and worst one was dating a black	woman	. When I first met her , she seemed and dressed nice . I should have known something was wrong with her when not even 30 minutes after asking her out and her saying yes , I was balls
Releasing private messages , emails , etc is the female version of revenge porn . The difference is that men lose their jobs and social connections , effectively destroying them financially ; but with	women	they are only embarrassed but then they go on to make money off simps by becoming Instagram - whores or reality stars
Kids is the only reason to get married . The bigger problem is how many men do not have their finances locked down yet allow a	woman	to cohabituate with them . This is why I will say it until I die , never buy your house and property in your own name . Trust , LLCs (incorporate in some way) , or as
to the “ you just ca n’t get laid “ shaming that they apply to anyone who dares to criticize women . They think MGTOW just need PUA advice . Lol . I ’ve run through enough	women	to lose all respect for them except as sex partners . And that includes their inability to be a good parent to my children

Girlfriend Concordances:

There 's problems there too . I dated one woman whose parents were each other 's first loves in high school . They dad was so beta , his wife did n't do squat . My	girlfriend	and I moved in together and it became clear very quickly she expected me to do everything while she did n't lift a finger
Exactly . Men are treated as pariahs just for going out and trying to find a girlfriend . If a dude expresses any disappointment at all over not having found a	girlfriend	, he 's branded some kind of predator . Notice they do n't do that in other areas . If some athlete tries to make the Olympic team , but fails to make the cut , he or
i remember my friends giving me shit for not having a	girlfriend	i would say i had better things to do than entertain some women . it 's funny because when we would hang out they would ask me how i got so smart and had time to learn to play 3
sex is more enjoyable with a girl who is into you than with a prostitute who is only looking for money . The thing is , civilian girls are amazing actresses who are very skilled at lying . My last	girlfriend	claimed that she was never sexually attracted to me even though she kept calling me sexy in bed and through text . With a prostitute , you KNOW that she is only doing it for the money . Whereas
you and never give anything in return . Being kind is stupid , and I 'm not an idiot . Or at least I do n't want to be . Always seemed like so much work to get a	girlfriend	, even before I was redpilled . As silly as it may sound , I wanted to be pursued by girls , and not the other way around . That does n't seem to happen much , even if you
Not going to lie , I can kinda relate . My car is my	girlfriend	. Sometimes she breaks down on me but I know she 's trying her best and is reliable 99 % of the time . I treat her well , clean her up , buy her nice gear from time to

I realized that they bring nothing to the table except their pussy and that essentially makes them prostitutes whether they want it or not . Then I realized that not only I wo n't be respecting the prostitute (i.e.	girlfriend	, wife or whatever other name) but the prostitute wo n't be respecting me because they realize that I I'm grossly overpaying for the sex they provide . That means I can do no better and therefore ,

Thot Concordances:

women have dropped the mask . They ca n't continue like this because men are finding plastic dolls more pleasing than women . They will revert to being trad -	thots	. Meanwhile all a MGHOW needs to know is- a woman is bad for his mental and spiritual health . Once you understand that you can then learn and
They are everywhere . Save yourself and let the rest burn . No one cares about your well being ! You are just a sperm donor or workhorse slave for	THOTS	and everyone else . Do n't let them get ya
So either I bleed money out my ass for decades totalling in the hundreds of thousands to support a	thot	that will end up cheating on me and trap me with child support or pay 6 - 7 K up front and keep the rest of my money ,
Good luck , bro . Just remember to stay away from	thots	and alimony . And if a thot brings children from another male to you , just eat them

Eve concordances:

Could we not view this from another angle as well though ? God wanted to quell Adam 's loneliness so he created Eve .	Eve	was a gift from God . A gift from God that shows how much he loved Adam . So could we not therefore say that Eve 's mere existence is symbolic of God 's love ? Adam who lived
If we go by religion , then it was	Eve	who got us kicked out of the garden of Eden (along with our eternal life / youth) . Adam , the first simp , listened to a vagina(Eve) . Maybe she was hoping to obtain
For as long as men want sex , women will have a way into our hearts . Remember Adam and Eve . Adam knew he would be forsaken by God but wanted so badly not to be apart from	Eve	that he ate the apple . Just because you know paradise (MGTOW) does n't mean you wo n't meet your Eve some day
A woman should learn in quietness and full submission . I do not permit a woman to teach or to assume authority over a man ; she must be quiet . For Adam was formed first , then	Eve	. And Adam was not the one deceived ; it was the woman who was deceived and became a sinner . But women will be saved through childbearing — if they continue in faith , love and holiness with propriety
and strength . My favorite thing is to meet a religious woman and say to her when she says men lie , that the original liar was a woman (EVE) . If you follow the whole Adam and	Eve	story , women ruined the fucking world , bro (I 'm not religious) . Long story short , once you realize they have NOTHING other than pussy , your life changes . It 's like taking shrooms or

Adam Concordances:

if the serpent was just an representation of " Evil " deed , To Blame the Devil for the Fuckup done by Eve ? What if God only made Adam and Eve was made by the Devil 🍆 to Tempt	Adam	? Or was she Satan herself ? You have pointed out something that so many people accept uncritically : that the serpent in the Garden of Eden was Satan . This is not true . Take a
Interestingly in the story it was Eve who wanted to be like God .	Adam	just went along with what eve wanted
Maybe something regarding Adam and Eve . Since she gave the apple to	Adam	, then the Snake appeared . And the snake was the devil . So she let evil into this world and the snake coming out of hear head symbolizes
The lesson of	Adam	and Eve is interesting , but that is definitely not the lesson of it . If anything , the lesson is that women could be great helpers , but need to be put on a short leash lol
God told	Adam	he would make him a partner but it would n't come cheap . It would cost him an arm and a leg ... Adam asked " what can I get for a rib ?
another example . Women buying highly mortgaged condo 's with high condo fees is another example . They just need a small push / permission and they 'll happily destroy their own lives . ​ ; Now	Adam	is a warning about male nature . The man knows its wrong and bad for him but if a woman puts something in front of him he will sacrifice his own best interest to " go along " with her
that same chapter . Time and time again , scripture is rife with verses imploring men to seek God and his wisdom , and to not	Adam	's mistake , to hearken to the voice of the wife (Gen 3:17) * instead of follow God * is our greatest temptation that

bother with women . Why ? Because of the inclination for men to make		will be lifelong . I firmly believe that in the absence of sexual desire
Interestingly in the story it was Eve who wanted to be like God .	Adam	just went along with what eve wanted
	Adam	was the ultimate Simp and mixing sexes in the work environment was a huge mistake
	Adam	should have gone his own way , would still be in
something . 3 . No . No such thing as the perfect woman exists . One did , at one time , her name was Eve . And she managed to fuck everything up . And so did	Adam	, the ultimate simp , because he took a bite along with her knowing full well he was damning himself along with her . So , no , I 'm done with women , it 's just not worth

Buddha Concordances:

Women are not equal to men . Even the	Buddha	acknowledged that a woman can not attain enlightenment until she was first reincarnated as a man

Pussy is no different . Man used to have to groom himself , court multiple women in the attempt to get pussy . Now man can shop at fleshlight and get a pocket pussy and a free porn library on google for 50 bucks . I say to	Buddha	get with the times ! The way I see it the only time you should bother other humans is if you are looking for human companionship . Dealing with a woman you are n't interested in spending time with just to get the pussy between her legs is so

What a cunt to make an issue over absoutely harmless flirtation . If Brad	Pitt	said the same thing , she would be masturbating and thinking about it for days
Not attractive enough apparently . I mean if you are unattractive like Aziz , you should try your luck elsewhere . People need Aziz to fuck Brad	Pitt	not him , but he is too stupid to realize it
Not really though . It appears to be easy , but he still gets fucked by the gynocentric society if he is unaware of the redpill . Such as Brad	Pitt	getting divorced
People confuse the height thing completely . The vast majority of women require only that you 're taller than her . These are the same people who call Brad	Pitt	a " chad " when he 's 5'11 or any pro athlete ever is a " tyrone " or " chad " . Julian Edelman dated adriana lima - he 's 5'10 . Danny amendola dated some other supermodel ,
Simple , realizing that even being perfect was never good enough for women . Based on what happened to Henry Cavill , Channing Tatum and Brad	Pitt	, it helped cement that observable reality
Well , he is not handsome like Brad	Pitt	or wealthy like Jeff Bezos . No wonder he is having issues with his wife
Remember Brad	Pitt	was a Chad

accusing the man of abuse is an effective way to sway opinions with no proof of wrongdoing . First Depp , then	Pitt	, BOTH getting accused of abuse . I LOVE THIS SHIT . Any rational man who sees this shit splatter and does n't see the insidious pattern of accusation for profit that should make them fucking SHUN entering
who are not even in proximity in value . I know women date up , but in modern culture this gap has turned into chasm . Every fat cunt with nothing going on outside or inside wants the next Brad	Pitt	and nothing less of that . Why ? Because she puts on 3 layers of makeup , uploads some selfies doing the duckface , and gets hundred of thirsty betas drool at her pics on social media . Of course
Offer her two choices . decaprio or Brad	Pitt	. Brad Pitt was divorced raped by a CFR bitch with no tits who adopted half of Africa and said he raped em all by metooing his ass to get custody and become just another single mother . DiCaprio never
When 80 % of women want the top 20 % men then that will result in a lot of lonely men and women , LOL ! The average man gets rejected by women who have unrealistic expectations for a Brad	Pitt	, while those women get rejected by such men because those men get the top 20 % women stunners , leaving the other 60 % high and dry . That 's about 60 % of women who are proven to

n't an uber cunt before the marriage too . men do n't realize that one some crazy primitive psychological level , a man agreeing to marriage INSTANTLY removes him for the Chad Zone , even if he 's fucking Brad	Pitt	, it just shows he 's willing to grovel to her stupid pussy hole and she loses all sexual interest in him . NEVER MARRY> ;

Total waste . I 'm above average in every way , but since I 'm not rich or famous or a male model , the attractive women are willing to hold out until their death for Brad	Pitt	to walk in . They 're convinced their worth is no less than marrying a Prince
Just wait until you 're 35 and start sprouting grey hairs (if you have n't already) . Unless you 're like Brad	Pitt	or George Clooney , people will stop giving a shit about your sex / love life . In their view , you 're just another loser who " missed the boat " due to his inferior DNA and they are
Open your eyes and watch the news . Even Jeff Bezos and Brad	Pitt	were n't good enough for their women .
I completely agree . my point is , all of the PUA / TRP places ALWAYS place the blame on the guy . Apparently , even Brad	Pitt	is nt " Chad enough . " They are always reaching for another idol to use to subjugate every guy who walks in . Pushing the fucking bar ... for women . Why not push the bar for THEMSELVES
Happens to the best my friend . Brad	Pitt	. Einstein . Jeff Bezos . Myself haha . She likely found someone else and you will too . Just do n't let your guard down next time . Monogamy is dead .
They 're absolute filth and trash . They have zero regard for you . Men are objectified by women for looks and the size of their wallet . It does n't matter who you are . Look at Brad	Pitt	or any other person . You can be 7 ft tall with an 8inch mega cock and they 'll still cheat on you . Knowing this keeps me away from women

Oh well , " non meus circus , non meae simiae , " which as any Latin scholar will tell you means , " Not my circus
talking about going on a trip around the world and how her boyfriend was staying at home and how this was an issue . I would n't wait for her to dump me or cuck me with Euro -	Chad	. I 'd let her go then dump her before her flight takes off . No girlfriend of mine would even consider such a trip without me
Women believe that the social hierarchy goes alpha males & gt ; women & gt ; beta males . Are you familiar with AF / BB & amp ; Chad ?	Chad	is the alpha that she s actually attracted to . Women exclusively sleep with these type of men while on the CC (when they sleep around at a young age) . When Chads lose interest in them

So either I bleed money out my ass for decades totalling in the hundreds of thousands to support a	thot	that will end up cheating on me and trap me with child support or pay 6 - 7 K up front and keep the rest of my money ,
Good luck , bro . Just remember to stay away from	thots	and alimony . And if a thot brings children from another male to you , just eat them

Nazi Concordances:

that all mutually doing one thing , going our own way . Please get the fuck out with this trying to box MGTOW into some political shelf . Tom over there could be a black lives matter Mexican border hopping	Nazi	I simply do give a fuck as long as he understands how to stay away from succubus women
is any indication they ca n't aim worth a damn) . If your political beliefs ARE identical , but they do n't believe you or you 're not dedicated (read : insane) enough , still a	Nazi	! Everyone here would be considered a Nazi just for lolnoping out of cancerous feminism
ca n't stand mangina male " feminists " . The whole lot of them are worse than feminists . They are driven by their pussy thirst and far more dangerous to men and women than the average skin head neo-	Nazi	. Because of their unrequited addiction
a code of morals that everyone followed so situations like this would n't happen . None of MUH FOUNDIN FATHAS would agree with your views on naked women walking around . Plus , if I want to be a	Nazi	, why are you angry ? I have the freedom to be a nazi . Or the freedom to be an antifa . So you should n't really have any problems with nazis
ntitled , hypocritical , uneducated , racist , redneck low - class trash . That 's why our history is riddled with things such as the Ku Klux Klan and neo - Nazis . America is the closest thing to	Nazi	Germany that exists in the world today . America is also one of the least successful countries in the world , and we have n't been successful for at least 50 , going on 60 , years now since the

Tough shit . When enough of those women start suffering for what their	Nazi	feminist sisters are doing , maybe things will change . Until then , they can fuck off too
This cunt probably says bullshit like " the future is female . " Reminds me of	Nazi	's extreme ideology . Instead of trying to co - exist peacefully , they would rather dominate and destroy . They would rather control your thoughts like the Gestapo . I 'd say end them before they become like the
I once mentioned my car dealership here once . Then I got a random pm from a fellow claimed to be mgtow inquiring about it . As a precaution I never responded just in case it 's some feminist	Nazi	trying to destroy my business

Celibacy concordances:

get aroused at the female form anymore . I'm not asexual but a nice ass and pretty face dont give any kind of satisfaction anymore like it used to and I can thank my self - discipline and	celibacy	streak for that
a period of self - imposed	celibacy	? is necessary to get your testosterone levels up , and , like you admit for your self respect . when you no longer NEED puss , and simply WANT it ? that s when " its time "
How quickly times change . Being a monk ,	celibacy	and abstinence are ancient practices that used to be respected , but not in today 's media . Think about how appealing the idea of being a Star Wars Jedi was in popular culture , but now you 'd be

to the social expectations of women and society since he believes both have become hostile toward him . Hmmm . No shaming ? No mockery ? Bold strategy , Cotton . & gt;Some MGTOW make a pledge of	celibacy	(“ Cut off the dick supply and raise awareness against the millions of chicks that use men and disrespect our natural role . ”) Some engage in sex with prostitutes exclusively . (“ The only honest
agree . social media and open hypergamy have simply revealed their true nature to all men who are not too blind to see it . Pump and dump or escorts . Or	celibacy	. Completely acceptable solutions , although pump & amp ; dump definitely carries the most risk .
poverty law center has labeled the MGTOW is a male supremacist group . So here are my questions . Is this an actual group ? It seems more like a state of mind . Also , are you promoting	celibacy	? I have more of a FWB approach to dating , no serious relationships and no way in hell am I letting a woman live with me . Is there a better group ? The reason I ask is a
If your not fucking you 're failing the minimum If she s not whoring to you her other exploits will have more effect My advice is to continue semen retention and	celibacy	because that is the path with the lowest amount of
I am 29 , been monk mode enjoying	celibacy	for like 2 years
Involuntary	celibacy	= incels Voluntary celibacy = many MGTOWs
it over with . It seems like the definition of incel requires some fixation on getting laid . MGTOW having sex is n't really any sort of contradiction . There 's nothing in the philosophy that says anything about	celibacy	. There 's nothing wrong with sex itself ; it 's everything that surrounds sex that can be a problem . As long as a MGTOW is aware of and can account for those problems , I do n't see
That has nothing to do with * involuntary	celibacy	* and everything to do with * voluntary celibacy .

Procreation concordances:

Real love , that is , wanting the best for other people , is a must . Sex is overrated , useless unless for	procreation	
You 're called a rational man by historical standards by recognizing women are only for	procreation	and sexual desires , love has always been a myth , and societies used it to slave men to it
I do n't even think getting sex frequently (if ever) is worth it . It drains you of your essence . That 's why people like Ghandi advocated for sex only for procreation , and not even for	procreation	as his theories matured . Maybe he was onto something
ego , or with a ghost she tries to create in my mind , and if you lie to me , that is all it is . Sexual fidelity really only has meaning to me in the context of	procreation	, and with 8 billion people , this is hardly a concern in the era . Maybe that 's why it does n't bug me . Dishonesty makes me feel like a piece of shit though .
a gf , love , and affection . To acquire those things you have to present something that is worth a female 's companionship , love , and affection . & gt ; You might not be interested in	procreation	but the relationship you desire is based off of the primal instinct to procreate . We live in the wild bro . You are n't a lion . You present as an eternally wounded animal . What female , regardless
But they saw	procreation	as a duty , it 's a bigger issue than just yourself , Hierocles says " For we do not beget children so much for ourselves as for our country , procuring a race that may follow us , and
how can they understand . They have no race to run towards	procreation	THE fattest ; no teeth having ; short ; no personality having , opiod ridden whores still get to procreate they do n't know a world of celibacy . nOT LIKE

		MEN do . Their definition of words
I 'm one of those MGTOWs who 's not against	procreation	per se . Especially if I do n't have to foot the bill . Imagine a world where any female was free to ask for semen from any man of her choosing with the non - negotiable state contract of
either one of us . Maybe it 's cultural , maybe they have to get married to get access to family wealth , maybe for tax benefits , and yes maybe to procreate . Marriage is not a requirement for	procreation	, as many men shouldering child support have learned the hard way . Haul your " politically correct " NPC arse somewhere else . - Also ... you 're entirely full of shit (not that you

Inpregnate concordances:

1 . Cause we do n't wear makeup so we actually take care of our health . 2 . Since we can	impregnate	multiple and till a very old age , our " attractive " expression stays for longer
: male ratio and its consequences . Humans are at their reproductive optimum when there 's like 3 or 4 females per male , it 's very food - efficient to keep a low number of disposable males that can	impregnate	multiple women , our species did n't evolve to have nowadays 1:1 ratio . Basically nowadays women are so picky and bitchy because there 's too much males they can access , specially with internet and dating sites their hyper
While she 's waiting for Mr. Right , she 's going to have sexual needs to satisfy . She 'll meet a jobless loser in a club , accidentally get	impregnated	, and our tax dollars will pay for her dream and she still wo n't be

So wait ... this suggesting that , evolutionarily speaking , women search for men capable of	impregnating	them to avoid PMS
, you 're not full - blown MGTOW or perhaps still a blue pill mangina . Again , from the MGTOW perspective , what , exactly , is wrong with fucking a woman and being okay with her choosing to	impregnated	herself and keep the kid ? Please explain
I actually in another thread said that surrogacy was crap . Do not presume to know what my positions are . If he wants a family , there are better means of doing so than taking the risk of	impregnating	some young and dumb chick . I already stated that adoption is superior . There are living , breathing , children right now who could do well if they had someone in their life who wanted them as this man
Meanwhile , empty your condoms in the toilets after you 're done with her ass . Do not let her any chance to	impregnate	herself with your seed
strongly patriarchal nations understand the primary purpose of women , i.e. they are a reproductive resource . You only need a single man to fertilize a dozen women in a given time period ; a single woman can only get	impregnated	by a single man and reproduce at about a ~1.33 reproduction rate per year . Women would probably fuck up the execution on an attack anyways , which would inhibit ISIS from accomplishing its goals . Due to the
